

# CODI®

## Multi Purpose Perimeter Solutions

Manufactured from heavily galvanised wires welded together to give unparalleled strength and longevity to the life span of the fence.

The unobtrusive nature of the systems allow clear visibility through the panels thus giving no hiding places behind the fence line.

The heavy duty wire rods and the rigid construction, combined with anti tamper fixings, deter vandalism and maintain strong fence lines with aesthetic appeal.

The CODI® systems can be adapted to almost any fencing requirement, whether it be schools or playgrounds, sports areas or industrial estates, commercial properties or government facilities.

### W E L D E D M E S H F E N C I N G S Y S T E M

#### STRONG

Functional and modern fastening systems ensure easy assembly of CODI®, while still taking into account the need for a durable and robust system.

#### VERSATILE

CODI® welded mesh fencing is suitable for all requirements, combining security and aesthetics at an affordable price.

#### Design

A large range of mesh sizes and post dimensions.

#### High Quality Finish

Galvanised only or galvanise and polyester powder coated

#### Aesthetic

Wide range of colours available.

#### Features

Cost effective.  
Easy installation.  
Durable & sturdy.  
Adaptable for all uses.

#### Accessories

Cranked extensions clad with mesh or barbed wire.  
Anti vandal fixings.  
A range of matching complimentary gates.

### GENERAL SPECIFICATION

**FINISH:** Galvanised Only or Galvanised & Polyester Powder Coated (\*).

**STANDARD RAL COLOURS:** Green 6005 - White 9010 - Black 9005 - Light Grey 7035 - Blue 5010 - Red 3000 - Yellow 1021 - Brown 8014 (\*\*)

**NON STANDARD COLOURS:** Available on request

(\*) - Galvanised Only applies to CODI M, CODI H & CODI H Rebound.  
(\*\*) - Other standard colours are also available dependant on panel specification.

### CODI® RANGE

#### CODI® M (flat panel - medium)

CODI® M is a multi purpose rigid mesh panel system ideal for perimeter demarcation fencing or non-rebound school / sports applications.

**Mesh Size:** 200mm x 50mm standard

**Wire:** Double 6mm horizontal wires sandwiching a single 6mm vertical wire

**Fence Height:** 0.60m - 2.40m standard (other heights on request)

**Post Section:** Standard RHS - section depends on application and fence height.

**Post Centres:** 2525mm Panel Width: 2506mm

#### CODI® H (flat panel - heavy)

CODI® H is suitable for all applications including sports facilities, schools and playgrounds, industrial and commercial sectors.

**Mesh Size:** 200mm x 50mm standard (other mesh sizes available)

**Wire:** Double 8mm horizontal wires sandwiching a single 6mm vertical wire

**Fence Height:** 0.60m - 6.00m standard (other height on request)

**Post Section:** Standard RHS - section depends on application and fence height.

**Post Centres:** 2.525m Panel Width: 2506mm

#### CODI® H Rebound

CODI® H Rebound is designed specifically for sport applications where ball retention and rebound properties are required. Ideal for Multi Use Games Areas.

**Mesh Size:** 200mm x 50mm to top 800mm and 66mm x 50mm to lower 1200mm

**Wire:** Double 8mm horizontal wires sandwiching a single 6mm vertical wire

**Fence Height:** 2.00m panels only - to be incorporated into MUGA fencing

**Post Section:** Standard RHS - section depends on application and fence height

**Post Centres:** 2525mm Panel Width: 2506mm

#### CODI® C (crimped panel)

CODI® C provides a visually attractive solution to your perimeter requirements, while at the same time, maintaining a secure site.

**Mesh Size:** 200mm x 55mm standard

**Wire:** 5mm horizontal wires and 5mm vertical wires

**Fence Height:** 1.20m, 1.80m, 2.00m & 2.40m standard (other heights on request)

**Post Section:** Standard RHS - section depends on application and fence height.

**Post Centres:** 2500mm up to and inc. 2.00m high, 2330mm for 2.40m high

**Panel Width:** 2480mm up to and inc. 2.00m high, 2310mm for 2.40m high

#### CODI® Z (crimped panel)

CODI® Z is a robust yet stylish panel system utilizing high density welded mesh, providing an improved aesthetic finish to perimeter demarcation.

**Mesh Size:** varied from 150mm x 40mm to 150mm x 22mm standard

**Wire:** 6mm horizontal wires and 4mm vertical wires

**Fence Height:** 2.00m & 2.40m standard

**Post Section:** Standard RHS - 60 x 60 x 2mm.

**Post Centres:** 3070mm Panels Width: 3040mm
